## WHY MADISON MEN HAVE REMAINED OUT

But Two Extensive Tobacco-Producing Counties Have Not Joined Burley Society

Considerable attention is being given Madison and Garrard counties as a result of the fact that they are the only tobacco-producing ones on an extensive scale that are not affiliated with the Burley Tobacco Growers' Association. There is a whirlwind campaign being made in Fayette county for membership, 16 organizers being in the field. The situation is a peculiar one.

Ten men were asked why this county was not represented. Three of them said they did not know, since they had not paid much attention to the matter. Two stated there was no use in a few going in unless all went in. Two said they were willing to join the association if others joined. One said he had signed independent of action of others, and would sell his production at Lexington if there were better prices prevailing there. Another said he did not believe it would get him anything. The tenth one stated as his reason for not joining that he could not see any benefits to be derived by doing so, and said he would be able to get what the others got in the way of prices, saying he had as good a grade as anyone else.

That is the situation as presented in this county. The reason for the Garrard county situation is not known.

A. H. Shouse, organizer, and extensive producer of Fayette county, while at the court house in a recent talk to tobacco raisers here, said: "An organization commands more respect than an individual. By the interchange of methods and ideas, we hope to place tobacco under the federal law inspection, same as the pure food, thus making it necessary to have every cigar stamped, giving its quality, quantity of tobacco, as well as the grade of it. The price then can be considered. It is the intention to take the census next year to ascertain the quantity as well as quality of tobacco in the field and thus be able to demand proper prices."

## WEATHER FOR KENTUCKY

Fair tonight and Thursday; somewhat warmer Thursday.

## WAR COST U. S.

24 BILLION DOLLARS

(By Associated Press)

Washington, Dec. 8.—The net cost of the war to the United States was fixed by Secretary Houston today at \$24,000,000,000. He said this represented the "adjusted" expenditures of the treasury, excluding all other outlays, which had no actual relation to the prosecution of the war from April 6, 1917, to June 30 last, which he said covered the extremes of the government's war time fiscal operations.

The total expenditure was approximately \$38,000,000,000. Approximately nine and a half billion dollars was loaned to foreign governments which will be repaid, and four and a half billions in excess of the expenses not connected with the war brought the total to the figure first named.

Of the total, \$16,000,000,000 had been raised in taxes and the other from revenues.

## ATTACK MADE ON

COLLEGE OF BIBLE

Lexington, Ky., Dec. 8.—A congress of friends and critics of the College of the Bible, Lexington, to sift charges made against the institution, is favored in a resolution passed at a conference of 500 ministers and other members of the Disciples of Christ church in Kentucky at the Broadway Christian church last night.

Unanimous approval of the resolution followed an all-day discussion of conditions in the College of the Bible where, it is charged, "rationalism has been substituted for faith."

"I wish to simply say that the attack on the College of the Bible, to put it mildly, is a tissue of error and misrepresentation," said Dr. R. H. Crossfield, president of the College of the Bible and of Transylvania College, last night.

The resolution passed reads:

"Moved, That the trustees of the College of the Bible, faculty and friends be requested to set a time and place in Kentucky in the near future for the holding of a friendly congress for the purpose of discussing conditions now prevailing in the College of the Bible.

"Be it further moved, That the time of the proposed congress be equally divided between the friends and the critics of the college, and that a joint committee of friends and critics be appointed to arrange a program."

The following were approved by the conference as a committee to carry out the purpose of the congress: Church Ford, Georgetown; W. P. Crouch, Carlisle; J. W. Morrison, Lexington; W. J. Montgomery, Somerset; F. N. Tindler, North Middletown; W. T. Donaldson, Crestland; W. N. Briney, Louisville; Ira M. Boswell, Georgetown; G. W. Nutter, Nicholasville; Mark Collins, Lexington; R. C. Foster, Springfield; H. H. Webb, Covington.

## 1 KILLED, 2 AT DEATH

POINT IN TRAIN DUEL

Pikeville, Ky., Dec. 8.—Will Hopkins, prohibition enforcement officer, shot and killed Will Blackburn on a C. & O. passenger train this morning probably fatally wounding his brother Henderson Blackburn, and himself received wounds from which he is believed to be dying.

A brother of the Blackburns recently shot and wounded Buddy Hopkins brother of the prohibition officer. The Blackburns were on their way to Pikeville for the examining trial today, as also was Hopkins, when an argument arose on the train, resulting in the pistol battle.

Will Blackburn was instantly killed. His brother was shot in three places. He was operated on this afternoon. Hopkins was hot through the chest, the bullet penetrating the lungs. Hopkins claims the shooting was caused by insulting remarks made by the Blackburns, followed by threatening motions.

The shooting occurred as the train was near Regina. The Blackburn family lives near Marrowbone. Hopkins' home is at Alka, Ky.

The Woman's Missionary Society of the First Presbyterian church will meet with Mrs. C. D. Patti on Breck avenue Friday afternoon at 3 o'clock.

## HUNS GOT 300 SPIES INTO U. S. ARMY

Says Captain Who Stole \$6,000 and Confesses He Was Sent Over From Germany

New York, Dec. 8.—How Germany sent 300 cadets to the United States and had them enlisted in the American army, the majority of them reaching the firing line, doing spy work for the German government, and many of them being killed, was revealed here last night following the arrest of John Willers, 30 years old, former Captain in Company K, 48th United States Infantry, and himself a German.

"Well, I guess I am licked and might as well tell the whole story," detectives quoted him as having said, following his arraignment on charges of embezzlement of \$6,000 of K Co. funds and desertion.

Willers declared he was disappointed at not having been able to serve for Germany.

The prisoner did not reach the other side during the war, but deserted his company after the armistice was signed and his services to the house of Hohenzollern no longer could prove to be of value.

Three former Lieutenants, all now in business in this city, and formerly under Capt. Willers, completed the identification.

He admitted, police say, that he and 300 other German military cadets were sent to this country to enlist in the United States army when war seemed to be near, and all gained admission.

Willers said he was born and educated in Germany and was trained in spy work while in a German military academy. Upon arriving in the United States he went to Albany, N. Y., where he enlisted as a private. He was not long in the army when his previous military training was recognized and he was promoted rapidly, finally becoming a captain.

The spy acted, looked and spoke like an American and despite the fact that he could not produce citizenship papers he was commissioned and finally assigned as captain in K Company.

Willers explained that he had been instructed by his superior in Germany to act entirely American while in the United States and to refrain from any action favorable to Germany until he reached France or another section of the war zone.

Then came the armistice and Willers was still in the United States. He deserted, taking with him \$6,000 of his company's funds. This money represented the savings of the men in the unit.

Willers first went to Chicago and then roamed the country, time after time attempting to obtain a passport that would permit him to return to Germany.

Unable to obtain the passport, he disguised himself to prevent recognition. He wore heavy glasses. Four days ago these glasses fell and were broken. Willers failed to replace them and this directly was responsible for his recognition.

When questioned regarding what he had proposed to do if sent overseas at the head of his company, Willers is quoted as having said:

"I could have led the company to slaughter."

The prisoner said that he alone of the 300 German cadets sent to America was unable to fulfill his mission.

## EXPENSE OF COMMISSION

(By Associated Press)  
Washington, Dec. 8.—A special message giving complete expenses of the American peace commission during its work abroad was transmitted to the Senate today by President Wilson.

The total expenditures were \$1,651,191. Twenty-eight thousand dollars were for traveling expenses; \$133,000 for subsistence; \$200,000 for salaries, wages and employees at Hotel Crillon; \$131,000 for rents; \$176,000 for food and kitchen supplies; \$283,000 for laundry; \$64,000 for damage and loss of property at hotel; \$125,000 for various missions to Russia, Posen, Turkey, Holland and Armenia; \$238,000 for purchase of automobiles; \$14,000 for confidential expenses of the presidential party.

## CHRISTMAS RUSH IS NOW UNDER WAY

Many Soldiers In Foreign Lands To Be Remembered, According To Advance Business

There are many Christmas presents being purchased and the foreign mail is looking up, with the result that hundreds of pretty and good things from "home" are en route to foreign countries to gladden the hearts of local boys still in the army ranks, especially in Germany. There are a number of these on the Rhine, and they, it is said at the local post-office, are to fare well during the Holidays, since there have been many attractive packages sent out. The shipments left New York this week and will arrive in due time and be delivered to the young soldiers who are abroad in duty of their country.

While Europe represents the largest destination, there are many packages going to Panama and South American ports. Most of these are said to be for those in the marine service. The foreign mail is now receiving the attention of the attaches of the office, who are losing no time in seeing that the packages are properly addressed and sent out. Next week will be the last in which packages to foreign countries will be assured of reaching their destination on time.

Plans for the local rush are being made and there will be an extra force at the office. Postmaster Stockton believes this will be started so, since there are many realizing the fact that to send their packages early, is to assure more prompt delivery, and they are invariably marked "Do not open until Christmas." This adds greatly towards eliminating or reducing the great rush usually experienced just previous to the arrival of Christmas. Indications are that there will be a heavy business this year in Richmond.

## BUTCHERING NOW

VERY EXTENSIVE

There is much butchering of hogs throughout the county these days and some of the porkers are said to be in the finest condition a regular hog ever gets. Choice porkers are said to be reminding the farmer that his lot is not so bad, regardless of politics or religion, and it is hinted that some of the city folks are drawing the conclusion that the country cousin is realizing the price of fresh pork, and are not as generous as in former days.

The local market has not been beautifully supplied, it is claimed, with this fresh supply of meat. There is a ready sale at fair prices, it is claimed by those who come to the city with a small quantity for sale, however, the shipments into the city are said to be unusually small, despite the fact that there are numerous farmers butchering.

## ERECT MONUMENT HONOR OF SOLDIERS

Committee Named To Arrange Details and County Is Ready To Make Appropriation

A granite monument especially and appropriately designed is to be procured and erected in the front yard of the Madison county court house and dedicated to the memory of those who lost their lives in the late war.

The definite action was taken at the regular meeting of the fiscal court on Tuesday, after Attorney O. P. Jackson delivered an address in behalf of fallen heroes who made the supreme sacrifice. The tal kof Mr. Jackson had to do with the part Madison county took in the great struggle and the cost of human life; the patriotism displayed and the honor roll as a result. Mr. Jackson brought the matter to the attention of the court and urged the building of this memorial to the soldiers, both white and colored, who died during the war. He said he wanted the name of each carved on the shaft to be a permanent tribute to their memory where their friends and loved ones may always see it.

The county is ready and willing to appropriate the required sum for the monument and the intention is to further the plans whereby it can be procured and established. It is the intention to decide regarding the nature of the monument and have the same prepared and procured according to the decision of a committee named by Judge W. K. Price, presiding over the court.

The committee which will have charge of the preliminary work, and which will issue a call for a meeting in the near future for the purpose of arranging the details, comprises the following: Esquire T. B. Collins, Dr. D. W. Williams, Esquire W. S. Miller and Attorney O. P. Jackson. They will arrange a meeting, when the details regarding the nature of the monument and other features will be decided upon.

Judge Price stated that the county stood ready to do its part when called upon and there would be no delay regarding the appropriation. It is probable the monument will be placed in the southwest corner of the court yard, since the granite fountain occupied position at the southwestern corner. This matter, however, will be decided later.

## MUCH OPPOSITION TO CONVICTS ON ROADS

Says Commissioner Joe Boggs, Who Talks About Road Prospects In Kentucky

Work on the road projects on which the United States government is paying half the cost will be rushed as soon as work can be resumed in the spring, said Joe S. Boggs, Commissioner of Public Roads, in discussing the effect of adverse court decisions on the program of the State Road Department. More than 400 convicts from the State Reformatory at Frankfort, are to be worked at isolated points in the state next year, he said. Mr. Boggs spent Sunday at his home here.

The decision of the Appellate Court that the whisky tax of 50 cents a barrel was unconstitutional and the decision of a county court recently that the law permitting counties to loan money to the state to build roads was invalid, have caused road work to come to a virtual standstill, according to the Commissioner. Only work on federal aid projects is being continued.

"Kentucky needs \$10,000,000 yearly for good roads," said Mr. Boggs. "No wwe have about \$3,000,000 including the sum given to the state by the federal government. And the federal aid law runs out in 1922."

"The government engineers have refused to extend more aid to Kentucky at this time. They assert that the work already stated will require \$40,000,000 to complete while under the present law the state can only get about \$3,800,000 more from the federal government. This is matched by an equal amount from the state."

"Just what the federal program will be is uncertain. There is a bill to come before Congress again next session extending the federal aid law. This bill has its advocates but there is another group which favors the Townsend bill calling for the building of two roads in each state and maintaining them by the government. Under this bill each state would get one east and west highway and one extending north and south entirely across the state."

"We had prospects of getting money to build some really good roads under the county aid law before it was thrown out by the courts. Counties all over the state had promised us help and we already had \$1,037,000 pledged in this way."

There is not an improved road all of the way across Kentucky anywhere, according to the Commissioner. The Jackson Highway is the nearest to being improved all of the way across, but in many places it now is very rough, he said.

The working of convicts in road camps has met with much opposition, the Commissioner said, especially since the murder of a school teacher near a camp in the eastern part of the state. Use of prison labor will continue, however, he said, eight or ten camps being maintained next year. In addition the number of convicts to be placed in each camp will be increased to 40, the figure heretofore having been set at 25. They will be placed only in isolated sections of the state.

Four convict camps will continue to operate throughout the winter. These are camps, he said, where the prisoners work in quarries or in rock cuts.

## PROGRESS OF NEW NORMAL BUILDINGS

Todd & Sons Piling Material High and Are Complimented On Work—Big Jobs

The campus at Eastern Normal with piles of finished and partly finished lumber, together with other building material, resembles a lumber yard of no mean proportions. Besides this, there are more than 150,000 feet of rough lumber, also to go into the additions to Memorial Hall and Sullivan Hall dormitories.

Todd & Sons, Richmond contractors, are responsible for the big array of material, also for the progress being made on the buildings. The amount of material for the one building, the first named, is believed to be the biggest lot for any individual building in the city for some time. The Richmond men, too, are receiving credit for the manner in which they are handling the big jobs. There will be no hitch henceforth in the finishing of the buildings, since all of the material has been placed on the ground, and the workmen are busily engaged.

Albert Lytle, a big contractor from Cincinnati, who was in the city, stated the fact that all of this material had been obtained and placed on the building site at this time of the year, with material so high in price, was no mean task in itself, and congratulated the local men upon their successful work. "The rest will be the easiest part of it," he commented.

The steel work for the Memorial building has been put in place and Messrs. Todd report they will be able to have the building under roof by Christmas. This will enable the other craftsmen to take up their work and continue the degree of expediency that has characterized the work thus far. This building will also will be represented by a gymnasium, which will be recognized as the most important and welcome feature by all who occupy the building.

Todd & Sons report, in their usual unpretentious manner, that they will be able to fill their contracts without any difficulty, admitting of other contractors taking up their work soon, and that they have other jobs in and out of the city which will be sufficient to keep them busy for some time to come. Some of the most elegant buildings in the city, especially residences, are attributed to their art and workmanship. They state they cannot get far from Richmond, and the demand for their work furnishes ample reason.

## VITAL IMPORTANCE TO EVERY TOBACCO MAN

Burley tobacco sold on the Owensboro market December 6, 1920, at 7 1-2 cents a pound. The growers revolted and rejected all sales. North Carolina tobacco has sold so far this season below cost of production. The same report comes from Louisville and the Virginia markets. The outlook for Madison county is ruin, unless something is done by the tobacco growers themselves. No one man will have any influence. A third of them will have very little, but fifty per cent of the growers in this county, acting in conjunction with organized growers in the other burley counties, will have a great deal of influence on the price that will be paid for this year's crop.

The Burley Tobacco Growers' Association, already 5,000 members strong offers the only chance to save many of us from financial ruin. The time has come when we must unite our strength.

We can no longer stand back and wait for the other fellow to pull the chestnuts out of the fire for us. The job is ours.

Put your shoulder to the wheel. This county is full of men who are willing to do their part.

These men are requested to at once investigate. Mr. Green Clay, Richmond, is acting local secretary.

### FARMERS ASK

### WAREHOUSES TO CLOSE

Owensboro, Ky., Dec. 8.—The committee named by the farmers at a mass meeting here Monday to formulate plans for the handling of this year's crop of tobacco was in session all day. The warehouses met with the committee managers of the seven loose leaf, when a formal request was made by Chairman F. K. Moseley that they close their doors for ten days.

The warehousemen, at a later meeting, decided that they did not feel at liberty to close their houses at the present time, but advised the farmers to keep the low grades of tobacco off the market. Very little tobacco will be offered.

A mass meeting of the tobacco growers will be held at the court house Thursday morning, when the committee is expected to make a report.

Wilson, N. C., Dec. 8.—The Warehousemen's Association of Eastern North Carolina, announced today that its members had decided to close all their warehouses on December 17 for an indefinite period because of the prevailing low prices for tobacco. This action will close virtually the entire tobacco market in the eastern part of the state.

#### TAX REVISION WILL BE

## WHEN THERE'S A PLAGUE IN CHINA THE DOCTORS STARVE

M. D.'s in the Land of the Dragon Only Draw Their Salary When Their Patients Are in Good Health. A Pretty Sensible System.

The Four Day Money Back Trial Offer Which All of the Local Drug Stores Are Making on Re-Cu-Ma Gives Everyone in Town an Opportunity to See Whether Re-Cu-Ma Will Benefit Them. The Company Takes All of the Risk. It's Just Like the Chinese System. If at the End of Four Days There is No Material Improvement Noted the Buyer Can Return the Bottle of Re-Cu-Ma and Every Cent Paid for it Will Be Refunded.

Walk into your favorite drug store and buy a bottle of Re-Cu-Ma. Try it four days, using it according to instruction. If your condition does not show a material change for the better at the end of the four days, take the bottle back and ask the druggist for your money back. He will return it without question.

Could there possibly be a fairer offer? The local druggists say that while they sell every bottle of Re-Cu-Ma under these conditions, the returns are negligible, for Re-Cu-Ma lives up to its guarantee.

Re-Cu-Ma works its wonders through the four most important organs of the body—the bowels, the liver, the kidneys and the stomach. It clears and cleans the liver and by ridding the body of its accumulated poisons tones up the whole system and relieves the conditions which have resulted from a clogged liver and poorly functioning kidneys and stomach.

It is a tonic, too, and builds up the bodily strength. Innumerable testimonials have been sent in to the Re-Cu-Ma Company telling of great gains in weight resulting from the use of only a little Re-Cu-Ma. Many others show cases where it has materially benefited chronic cases of indigestion, nervousness and rheumatism.

With these testimonials to show how Re-Cu-Ma has benefited others and opportunity to give this well-known remedy a four-day free trial at the company's risk, hundreds of people in town will without doubt give Re-Cu-Ma the trial that it deserves in the next few days.

Remember—if it doesn't help you, you get your money back. Sold by Richmond Drug Company and all good drug stores.

### DRY OFFICERS TELL OF THEIR HARD TRIP

Lexington, Ky., Dec. 8.—How the officers who engaged in the battle with moonshiners in "South America" were forced to endure extreme hardships was told today by U. G. McFarland, prohibition enforcement officer for the Eastern Kentucky district, who returned from a conference in Bell county.

Forced to walk from Holden, Tenn., the nearest railroad station, to the moonshiners' district on the border of Whitley and Bell counties the officers' scant food supply for two days consisted of what they carried on their backs.

For two nights they had no sleep, because it was dangerous to sleep.

When the dozen officers after the battle and seizure of nine stills and as many prisoners, trudged into Pineville they were almost exhausted, Mr. McFarland said.

The raid broke the backbone of the wholesale moonshining operation in this notorious district, according to Mr. McFarland.

### Splendid Cough Medicine

"I feel that every family should know what a splendid medicine Chamberlain's Cough Remedy is. I am only pleased to relate my experience and only wish that I had known of its merits years ago," writes Mrs. Clay Fry, Ferguson Station, Mo. "I give it to my children when they show the slightest symptoms of being croupy, and when I have a cough or cold on the lungs a very few doses will relieve me, and by taking it for a few days I soon get rid of the cold."

## How a prospective mother prepared for baby's coming

*Nature's Evolution*

Of all the vital adventures in life, the birth of a baby is the climax of nature's most wonderful evolution.

During this period, nature is supposed to be preparing the internal organism of a woman for a safe and speedy delivery; but it is more the exception than the rule when nature, unaided, performs her part at the crisis in a manner to relieve pain and contribute to comfort.

"I was afraid," writes a prospective mother, "until an experienced mother told me about MOTHER'S FRIEND."

"—but now I cannot recommend MOTHER'S FRIEND too highly for I know it helped me wonderfully, and I can almost say my baby was born without pain. At the present time I am using it again, as I do not want to go thru the ordeal without it."

Three generations of prospective mothers have used MOTHER'S FRIEND. When gently applied, during the period of expectancy, it soothes the fine net-work of nerves, lubricates the broad, flat, abdominal muscles and prepares the way for an easier, quicker and practical delivery.

For valuable booklet—"MOTHERHOOD and The BABY"—free, fill in coupon below and mail direct to the makers of MOTHER'S FRIEND.

**WARNING:** Avoid using plain oils, greases and substitutes—they act only on the skin and may cause harm without doing good.

## BOYS AND GIRLS OF MADISON HIGH

Ready to Meet Adversaries Next Week From Versailles and Expect First Honors

Friday, December 17, will be a big day at the Madison High School, since it will mark the opening of the basketball season there, the occasion being all the more important since the event will record a double header game, the girls' team and the boys' team both making their season's debut. The contestants for honors will be the Versailles teams which will be here for their first game of the season.

The local youngsters are said to be practicing daily, and there are more than a dozen girls, Miss Lucille Deen, coach states, from which a good team can be selected. The same conditions surround the aggregation of boys, who are working hard, and it is believed both organizations will be a little above the average, and Versailles will have to look to her laurel.

Principal Kaufman, in speaking of the training, claimed the players would be selected later. He states that the work is very satisfactory and that there will be sufficient material for a good team both of boys and girls. Principal Kaufman is one that is possessed of original ideas regarding athletics in various ways which, it is said, will prove valuable this season as well as evident during the basketball season. He contemplates more extensive athletics for the school within a short time.

The new gymnasium is gradually being fitted up and there is more than the usual degree of interest displayed by those participating in the sports for the beginning of the season.

It is understood there will be a large number of rosters accompany the visiting teams here for the game next week and the fact that they are to be the first of the season for all teams concerned will render the fight for the initial honors all the more decided.

### CHIEF EXPLAINS IT

Chief of Police Devore is explaining why there are so few arrests this month, and also why his business fell off to such an extent last month. He asserts that the decrease in the number of arrests made and fines paid is a result of the approach of the holidays, and that there is a general saving for this occasion. There has been but one arrest in the city and one in the county thus far during the present month.

## DEMONSTRATION OF POWER OF THE PRESS

As a result of the fact that there are a number of warrants out for parents in the Poosey Ridge vicinity as a result of children not being sent to school, there have been a number of new faces at the schools, and there will be some petitions for leniency, it is expected, when many of the parents are summoned before the court next Saturday. Truant Officers W. A. Johnson is busily engaged serving the important papers, and there are some of the parents coming to him already reporting they have their children in school. "This

colony of negligents has been off the job and deriding the law for some time," said Officer Johnson, "and I will see to it that they have strict regard for the law within a few days, since the warrants have been served in all cases since they were warned, some of them repeatedly." It is claimed there are 17 warrants in one locality and another part of the county is productive of almost as many.

### XMAS TREES PLENTIFUL

There is said to be an abundance of Christmas trees ready for the market, and the first ones are expected soon. Madison county is said to furnish this important quantity for not only this but other localities. In the eastern part of the county there are reported hundreds of trees that will be ready for the market this year.

## TOBACCO WORK IS NOW BEING HURRIED

Tobacco graders and strippers are still in demand and a number are being employed at good wages. Wednesday morning a big list went to the vicinity of Fort Estill, where they were engaged to strip and grade tobacco, being paid \$4 and \$5 a day, some with board. Even higher wages, it is said, are being paid in some localities where there has been a lack of workmen, in order to get the tobacco prepared for the coming selling season.

All tobacco is being given more than usual attention, since it is being graded in a very particular manner. This is one of the courses pursued by producers this year more than ever before. Experienced graders have been steadily employed for some time, and the prevailing weather is said to be especially adapted to this work as well as stripping, since tobacco can be handled more rapidly and the work is said to be more extensive at present than at any time during the earlier part of the season, since many hold off the stripping until a later period, owing to the scarcity of help and partly on account of the weather, it is said.

## "HAS NEVER FAILED TO GIVE ME FINE RESULTS"

**Tennessee Woman Says Tanlac  
Relieved Her Trouble Four  
Years Ago and She is Still En-  
joying Splendid Health**

"Tanlac restored my health four years ago and I have not had a return of my troubles to this day," said Mrs. Sallie Hopper, of Hall Station, Tenn.

"I am sixty-five years old, and for as long as I can remember I had trouble with my stomach. My appetite was poor and what I ate soured on my stomach and gave me a bloated, distressing feeling. I had a sour taste in my mouth all the time and often it made me almost deathly sick. My sleep was not sound and restful and I was in a badly run-down condition and felt weak and listless all the time. I tried medicine after medi-

cine without any results until I became badly discouraged.

"Finally my son-in-law told me about Tanlac and I tried it. Right away my appetite improved and my digestion got better and I could eat things I hadn't been able to eat in years. My strength and energy returned and I could sleep soundly at night. That was four years ago and I have enjoyed good health ever since, for I make it a rule to take a bottle once or twice every year to keep my system in good condition and it has never yet failed to give me good results. Tanlac is a grand medicine and I feel I am doing anyone a good turn by getting them to try it."

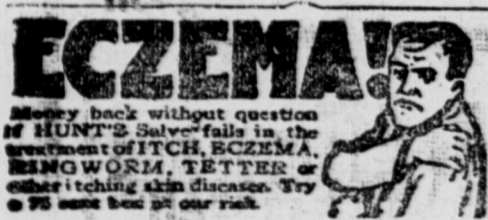

Tanlac is sold in Richmond by Stockton & Son; in Berea by the Welch Department Store and in College Hill by Gentry Bros.

### HINDOOS BOYCOTT BRITISH

New York, Dec. 8.—The progress of the boycott movement of the native element in India against the British Indian government is given in reports from India reaching the India Information Bureau here. The reports state that since the boycott began many natives have resigned from offices under the government; four colleges have closed as a result of the agitation, with a growing student strike movement through the country; and an almost complete boycott is under way of the government elections scheduled to take place in a few weeks.

### FEW DEER HUNTERS KILLED

Houghton, Mich., Dec. 8.—The 1920 deer season, which came to a close this week, was notable for the small number of hunting accidents. To date but two fatalities have been reported, with only three or four wounded. This is considered a remarkable record in view of the large number of hunters in the woods and a congestion made unusual by the short season of ten days. The deer slaughter was one of the heaviest in Michigan's history, in spite of the short season. The large number of deer killed is expected to strengthen the position of sportsmen favoring a closed season.

## PROTEST INNOCENCE OF GIRL'S MURDER

(By Associated Press)  
Booneville, Ky., Dec. 8.—Five young men charged with being implicated in the murder of Miss Rachel Allen, aged 21, on June 3 last, were placed on trial in the Owsley county circuit court today. The men were brought here last night from Lexington, where they have been held in jail since a few days after the girl was killed.

The men, Charles and Grover Gabbard, Leonard Baker, Harlan Baker and Robert Clark, contend that they are innocent, asserting the fatal shot was fired by a man who escaped. This man is said now to be in Canada and a reward for his capture has been offered.

It is alleged that the men broke into the home of Miss Allen and killed her.

### Blackleg in Mountains

### Severe Wind and Sleet Storm Visits Madison

Wednesday morning at 6 o'clock the freezing point was reached, with the result that telephone wires were soon coated, there having been a heavy rainfall during the greater part of the night. No damage was wrought, according to reports, telephone and telegraph service being uninterrupted. The sleet, which followed and continued for half an hour stopped the count house clock at 6:33 a. m. The precipitation during the night is said to have been the heaviest for many months, and it being accompanied by a strong wind rendered the night truly a wintry one.

### New Furnace in Action

For the first time the new furnace was in action Wednesday, much to the benefit of the plasterers, who are at work in the basement. The cold became so intense Tuesday afternoon, that the men stopped work until the furnace could be started. The plastering of the basement will be completed within a period of about three days.

### One-Half of Corn Husked

But one-half of the corn in Madison county has been husked, it is estimated. Men are at work these days whenever the weather will permit and an effort is being made to finish this work as well as that pertaining to tobacco. The yield of corn is said to be even greater than reported recently, when it was said the crop this year was the greatest and best in a decade.

### Haymakers to Effect Organization in City

While the wintry blasts are blasting within a few weeks, a number of Richmond men are preparing to make hay, since there is to be a hayloft instituted in this city in connection with the local tribe of Red Men, and S. D. Jones is the man at the head of the movement. There is to be a goodly lot of charter members, according to indications, and the date for the institution of the new organization will be announced in a short time. There was a loft in Richmond until several years ago, but the war interfered with many of the members, and the organization was cast aside. Regular meetings will be held during the winter, and it is claimed these men are willing to make hay, no matter what the weather conditions.

### HUNS MAY GET KAISER BACK

(By Associated Press)  
Berlin, Dec. 8.—The time for the return of the monarchy will come when the German people will have "drained to the dregs the blessings of the republican form of government," says the Kreuz Zeitung, discussing the anniversary of the German revolutions. The conservatives' organ adds that the time is likely to come much sooner than most people imagine.

## CHRISTMAS Cheer for All the Year

A solid year of Christmas cheer! Smiling faces and happy hearts! No time for worrying and crossing bridges. Who does not long for a way to make that true?

Well, there is such a way and many are finding it. Give Christmas presents that are useful and will be appreciated the year 'round. They'll recall to mind daily the happy occasion when they were given and received. Thus will the Spirit of Christmas be kept green.

People who put thought into their giving are saying "Merry Christmas" electrically, this year especially. Such presents invariably impress with their lasting elegance and good taste, yet they are not expensive. And their great service commands the instant appreciation of the user.

There's something electrical for all on your list, something they'll be the happier for having and using. Come and see.

### SENT DEATH NOTICE, THEN MET OWN FATE

A few minutes previous to coming in collision with an automobile which resulted in her death Saturday night, Miss Lelia Patridge, of the Eastern Kentucky State Normal School, visited the telegraph office and sent a message to her brother, Eugene E. Patridge, Southern Pines, S. C., informing him that she had been apprised of the death of a favorite cousin in the East. The relative, ac-

cording to the information contained in a dispatch to the local instructor had stepped from in front of one train while awaiting a train at a small station near Philadelphia, and stepped directly in the path of another. Death, according to the information, was instantaneous. Miss Patridge had just forwarded this information to her brother when she crossed the street, entered a store, made a number of purchases, and then started across the street again when she came in contact with the automobile which threw her to the street, breaking her neck and fracturing her skull.

The last sad rites over the remains were delivered Tuesday afternoon at the Eastern Normal chapel, by Rev. R. L. Telford, and Dr. H. G. Carpenter. The service was impressive and attended by a large number of students, the entire institution having been closed for the entire day thru respect for the unfortunate teacher.

### PAWNBROKER'S CHAGRIN.

Aged Man's Life's Savings Were Preserved Largely Through Accident.

The San Francisco newspapers, a few days ago, chronicled the story of an old man whose life savings of \$900 were stolen. The old man kept his money in a tobacco sack in a suit case under his bed. He lived in a single room in a ramshackle house. One would think that such a place would be the last resort of an ambitious thief.

Yet when the old man returned to his room in the evening the suit case and the money were gone. His plight in life was serious. It looked as if at the age of sixty years he would have to start over again. But the police found the money.

They discovered the suit case in a pawn shop. The pawnbroker said he had "lent" \$250 on it. His indifference, turned to chagrin when the police opened it and extracted the \$900 from the tobacco sack.

The old man has learned a lesson. When he recovers from his joy he will probably do as he should have done before his money was stolen—invest it in Liberty Bonds and leave his bonds in the care of a bank.

With virtually every bank in the country offering to care for Liberty Bonds free of charge and to clip the coupons as they fall due and pay interest on them, there is no excuse for any intelligent American if he elects to keep his money in his room and loses it.

### FARMERS IN GOOD SHAPE.

Crops in Missouri, Arkansas and Kentucky Considerably Above Ten-Year Average.

While the farmers in Missouri and Kentucky who raised wheat in 1920 obtained a yield somewhat less than the 10-year average, they more than made up for this on corn, which is considerably above the average.

In the latest monthly statement of the Federal Reserve Bank of St. Louis it is stated that the wheat yield for Missouri this year is 12.5 bushels per acre as compared with 14.3 for the 10-year average. The Kentucky wheat yield this year is 10.2 per acre as compared with 12.2 for the 10-year average.

Missouri's corn yield this year is estimated by the U. S. Department of Agriculture at 200,150,000, or 81 per cent, while the average for 10 years is 73 per cent. Arkansas' corn estimate is 59,232,000 bushels, 86 per cent for the 10-year average. Kentucky's yield is even greater—90 per cent as against 80 per cent for the 10-year average, with an estimated yield of 95,941,000 for this year.

With both wheat and corn bringing good prices, the farmers of these three states are preparing to make larger investments than ever in Liberty Bonds, which are selling considerably below par now, and to increase their holdings of Treasury Savings Certificates.

### WHAT ABOUT YOUR BOND?

It is Just as Good Today as the Day You Bought It and Is Worth Holding.

"Maybe you invested in Liberty Bonds for patriotic reasons; maybe you did so because they are the best investment in the world," says Scribner's Magazine. "Whichever your original motive, the same motive should impel you to manage your investment thoughtfully.

"In most instances it is unwise as well as unpatriotic for the investor to sell his Liberty Bonds. Probably the chief reason for selling a Liberty Bond is to provide funds for an emergency. An emergency can usually be met by borrowing at the bank, using the bond as collateral.

"The liberal offering of Liberty Bonds in the open market depresses their market price and causes the investor to sell his bond at an unnecessary loss. It is extremely poor judgment to exchange bonds for stocks or bonds of unknown character or to use Liberty Bonds in payment of merchandise. The broker or the merchant cannot offer you the equal in value of your Liberty Bond.

"If the selling of a Liberty Bond cannot be avoided, its sale should be negotiated through a banker or broker of known integrity who has facilities for handling the transaction at a very small cost."

### HERE IS GOOD FINANCE.

City of St. Joseph, Mo., Is Swapping Bonds and Making Money.

Frank Siemens, city comptroller of St. Joseph, Mo., on watch to increase the revenues of that city, has submitted an ordinance to the City Council directing the investment of municipal funds appropriated to retire bonds issued some fifty years ago, in Liberty Bonds at current market prices. A small part of these old bond issues still have been unredeemed by the bondholders and at present the city is drawing 2 per cent on the money held to meet them.

In submitting the ordinance, Mr. Siemens stated that with the sum at his disposal from this source, \$3,850, he could purchase \$4,450 worth of Liberty Bonds bearing 4 1/2 per cent interest yearly or \$139.37 as against \$77 now produced. In addition if held to maturity this investment would yield the city an additional sum of \$600.

This piece of finance illustrates in concrete terms the opportunity for profit which is presented to every investor by Liberty Bonds and Victory Notes at present prices. They are absolutely safe, they are backed by the entire resources of the nation and will be redeemed upon maturity.

### SMILES COME AGAIN TO PRETTY FACES

The Charm of Good Health Has Its Source in Rich Red Blood. Nothing on Earth so Necessary for Beauty

### PEPTO-MANGAN BUILDS RED BLOOD

Restores the Quality of Your Blood, Brings Back Your Color and Renews Vitality

Personal charm is like a light. It sheds its rays everywhere. Is the light of your personal charm hidden under the bushel of bad blood? Instead of habitual smiles do you wear a tired look—almost a scowl? Do you tire easily? Are you pale and lacking vital energy and ambition?

You are not really ill. Your blood has become weak and sluggish. It is half starved. What you need is the blood-making qualities of that splendid tonic, Pepto-Mangan. After you have taken Pepto-Mangan for a little while you will feel a big improvement. The smiles will come back. People will see a difference in you. You will make friends again. You will have plenty of rich, red blood and feel stronger.

Pepto-Mangan has been building red blood for years. Physicians prescribe it right along. It has just the ingredients that starved blood needs. Sold in liquid and tablet form. Both have the same effect. Be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name, "Gude's Pepto-Mangan," is on the package.—Advertisement.
